

D14/5-3

**Just say
the word and
your phone
can be...**

Rec'd ca 1972-1975

a Shortcut phone

1.68/mo

It's fast, easy and almost impossible to misdial with Speed Calling service. You code eight or thirty frequently-called or emergency numbers into your phone and it takes over from there...reducing the usual seven digits, or eleven digits for Long Distance, to just one- or two-digit numbers.

Rec'd ca. 1972-1975

3.00/mo

a Get-Through phone

Call Waiting service is like having two phone lines for little more than the price of one. If Dad calls while your teenager's on the phone, she'll hear a signal. She puts her call on hold and takes yours. He'll get you. Instead of mad.

\$ 3.00 / mo

a Going-Your-Way phone

\$1.68/MO

With Call Forwarding service you can leave home without leaving your phone calls. You dial a special code and then the number where you can be reached. Or you can forward your calls to a friend's or relative's home even if you're not going there... so an unanswered phone won't signal an empty house. It's like taking your telephone with you. Or being at home when you're not.

a Committee phone

1.68/mo

With Three-Way Calling service, your phone can host a get-together for three, local or Long Distance. To make plans or just good conversation...to make fewer calls and get more done... Three-Way Calling is for you!

For just pennies a day...

the phone in your home can be a Get-Through phone, a Committee phone, a Going-Your-Way phone or a Shortcut phone. Custom Calling Services are available in most areas. Whether you have Touch-Tone® service or rotary dial, these services are for you!

To order Custom Calling Services, and for the rates in your area, call your Business Office or visit your PhoneCenter Store.

It's for you!
